ABOUT US

15+ Years of Security Excellence

Founded in 2009, Fortress Security began as a boutique physical security firm in Gurugram. Recognizing the rapidly evolving threat landscape, we expanded our capabilities to encompass cyber security, sustainability consulting, and comprehensive facility management.

Today, we protect over 500 enterprises across 20+ cities, with a team of 5,000+ trained professionals operating from our state-of-the-art 24x7 command centers.

- **2009**
Founded in Ahmedabad
 Launched physical security guard services with 50 trained personnel.
- **2013**
Cyber Security Division
 Expanded into digital protection with SOC services and VAPT capabilities.
- **2017**
Sustainability & Facility
 Added ESG consulting and full facility management services.
- **2024**
AI-Powered Operations
 Launched AI surveillance, BodyCam guards, and cloud-native SOC.

WHAT WE STAND FOR

Our Core Values

 Integrity Uncompromising ethical standards. Trust is our most valuable asset.	 Innovation Cutting-edge technology to stay ahead of evolving threats.	 Excellence Highest quality service with meticulously trained professionals.	 Sustainability Building a secure tomorrow for organizations and the environment.
--	--	---	---

Why Fortress?

- **Tech-First Approach**
 AI-powered surveillance, BodyCam guards, real-time SOC monitoring
- **Expert Team**
 Graduate-trained guards, certified cyber experts, ESG consultants
- **Certified Excellence**
 ISO certified, government approved, industry-recognized standards
- **24x7 Operations**
 Round-the-clock command center, always-on SOC, zero downtime

OUR SERVICES

Integrated Protection Solutions

Five pillars of security excellence, unified under one command. Fortress Security provides end-to-end protection across physical, digital, and environmental domains.

01

Smart Security Guards

Graduate-trained guards with BodyCam tech, 24x7 command center support, fire & disaster management, CCTV monitoring, and lift rescue operations.

02

Cyber Security

End-to-end digital protection: SOC services, cloud security, endpoint security, incident response, cyber forensics, compliance, and awareness training.

03

VAPT Services

Network, cloud, web & mobile penetration testing with CVSS-based risk scoring, detailed reporting, and guided remediation support.

04

Sustainability & ESG

Carbon footprint assessment, ESG consulting, green building certification, renewable energy advisory, and circular economy solutions.

05

Facility Management

Complete facility solutions: housekeeping, sanitization, HVAC, electrical, pest control, waste management, and manpower outsourcing.

One Partner. Total Protection.

Consolidate your security and facility needs under one trusted partner — simpler, smarter, more cost-effective.

SERVICE 01

Smart Security Guard Services

Our next-generation security guards are more than watchmen they are trained first responders equipped with cutting-edge technology, delivering unparalleled on-site protection with real-time command center oversight.

KEY CAPABILITIES

- Graduate-Trained Guards with BodyCam educated, professional, accountable
- CCTV Operation & Monitoring real-time threat assessment and recording
- Fire & Water Rescue Trained certified in fire safety and emergency response
- Lift Rescue Operations elevator emergency and occupant rescue procedures
- Disaster Management evacuation coordination and crisis response

Technology-Enhanced Protection

Every guard is equipped with a body camera, connected to our 24×7 AI-powered command center for real-time monitoring, incident alerting, and instant coordination with emergency services.

SERVICE 02

Cyber Security Services

In today's hyper-connected world, digital threats are as dangerous as physical ones. Our cyber security division provides end-to-end digital protection through our AI-powered Security Operations Center and expert cybersecurity professionals.

SERVICE PORTFOLIO
